EDUCATION

Indian Institute of Information Technology, Tiruchirappalli

Aug 2023 – Apr 2027

B.Tech - Electronics and Communication Engineering - **CGPA - 8.5**

Tiruchirappalli, Tamil Nadu, India

EXPERIENCE

Software Developer Intern

Nov 2025 - Jan 2026

Jungle

Remote

- Built an **AI-powered** tool-recommendation **search pipeline**; validated across 15+ edge cases and 5 LLMs, reducing irrelevant results by 35%.
- Automated **SERP scraping** and **AI metadata extraction** pipeline, cutting tool onboarding time from 5 minutes to 2 minutes per entry (60% reduction).
- Implemented role-based access control (**RBAC**) and an admin approval workflow, reducing spam and low-quality submissions by 25%.
- Shipped production backend on Next.js and PostgreSQL with zero downtime incidents.

PROJECTS

Flagship | [Github](#) | Tech Stack: Next.js, NeonDB, PostgreSQL, Drizzle ORM, TanStack Query, Redis

Mar 2026

- Designed a Scalable **Feature Flag Platform** with **percentage-based rollouts** and **rule-based targeting**, eliminating redeployment overhead on feature releases.
- Achieved **sub-100ms** flag evaluation latency using **Redis server-side caching** and hash-based SDK client caching.
- Added audit logging and config-change validation; used TanStack Query for client-side server-state caching, reducing redundant API calls.

Trackly | [Github](#) | Tech Stack: Next.js, PostgreSQL, Drizzle ORM, Redis(caching & event queues), AWS EC2 Jan 2026

- Built a **real-time web monitoring** platform tracking 15+ production signals including referrer, UTM parameters, session duration, bounce rate, and active user counts via **live dashboards**.
- Implemented a **sub-3KB** tracking script enabling fast loads, low overhead, and reliable event capture.
- Cut server load by **50%** via Redis caching, **event-driven job queues** with **background workers**, and **10-second heartbeat pings** for active-user tracking.

TECHNICAL SKILLS

Programming Languages: C++, Python, JavaScript, TypeScript, SQL

Core Computer Science: Data Structures, OOP, DBMS, Operating Systems, Computer Networks

Frontend: React.js, Next.js, TanStack Query, REST APIs, HTML/CSS

Backend: Node.js, Express.js, Redis, Background Workers, Event Queues

Databases & Tools: PostgreSQL, MongoDB, Git, GitHub, Supabase, Postman, Agile/Scrum workflows

ACHIEVEMENTS

- **ICPC Asia West Regionalist (2025):** Qualified through regional rounds.
- **Technocrats Hackathon Finalist:** Top 70 teams out of 400+ across 1000+ participants.
- **LeetCode:** Knight Badge (Max Rating 2050) | **Top 1.5% Globally** | Solved 1000+ DSA Problems
- **Codeforces:** Specialist (Max Contest Rating: 1401) | **CodeChef:** 3-Star (Max Contest Rating: 1677)
- **IICPC CodeFest 2026:** Ranked 1830 out of 13000+ participants in an multisite offline contest.

Leadership & Extracurricular

- **Table Tennis Club Coordinator:** Organized intra-college tournaments; handled scheduling, team coordination, and event logistics.
- **Competitive Coding Club Member:** Mentored junior students on DSA, ran contest prep sessions, and organized on-campus competitive programming events.
